A LUXURY DOG SHOWER DESIGNED AND MANUFACTURED IN THE UK

Designed for your dog.  
Built for everyday life.

INCREDIBLE DOG SHOWER CO

# Designed for your dog. Built for everyday life.

Our mission is to make washing your dog at home kinder for them and easier for you.

**The Incredible Dog Shower** is designed around real life with dogs – muddy walks, wet coats and wagging tails that don't stop at the back door.

Instead of bending over baths, balancing dogs in sinks or battling with a hose outside, your dog has a dedicated space of their own. It's always there, always familiar, and turns wash time into a simple everyday routine.

**The Incredible Dog Shower** is a UK-made dog washing station that integrates neatly into kitchens, utilities and boot rooms, or can stand alone in a garage or outbuilding. Practical enough for daily use and refined enough to sit alongside premium cabinetry and appliances, it brings a warm, comfortable dog shower into the heart of your home.

“A calm, comfortable shower experience, in a space your dog knows by heart.”

# A cleaner home. A safer routine.

Mud, outdoor debris and fur stay in one place instead of travelling through the house. Washing paws and coats straight away reduces the spread of outside bacteria and mess into kitchens and living spaces.

Washing at a comfortable height means no lifting dogs into baths or over high edges – kinder on backs and joints. A secure, low-level base and an integral thermostatic valve keep the experience safe, steady and reassuring for both of you.

## A gentler way to wash dogs at home...

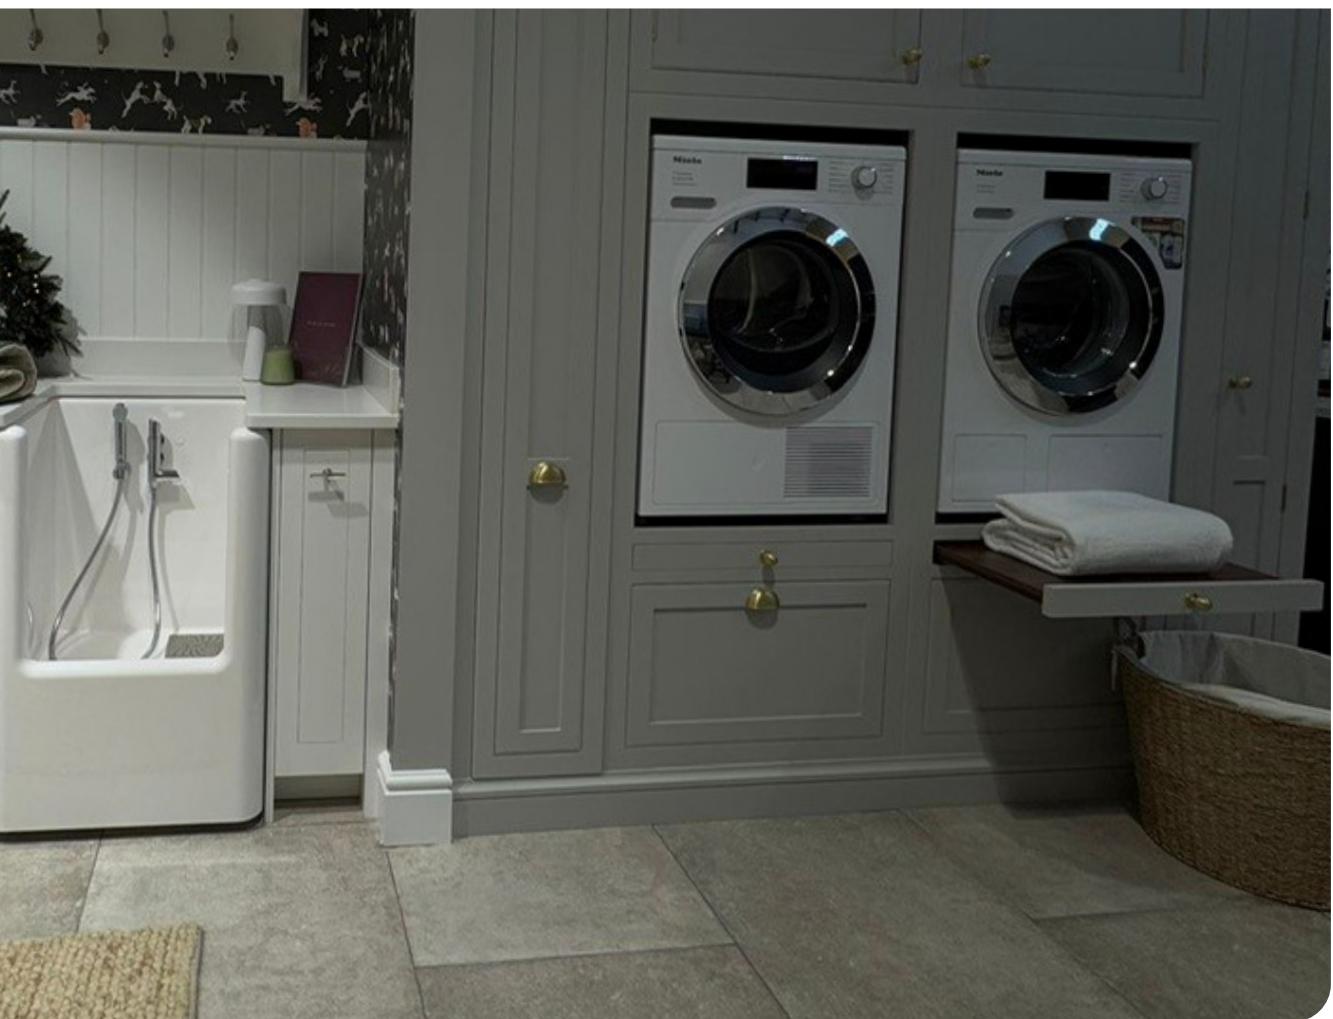

Your dog is part of the family, so washing them shouldn't feel like something they simply have to endure. A gentle, trigger-operated spray gives you precise control over the water flow, so you can rinse paws, legs and tummies without splashing, startling or over-soaking.

Because everything happens at home, in a space they recognise, many dogs feel more relaxed than they might in a busy grooming parlour – especially puppies, older dogs and nervous rescues.

# Meet the Nomad and the Explorer:

## Ready wherever you and your dog roam.

**The Incredible Dog Shower** is simple to install wherever there is access to water and drainage – much like a washing machine. Each model includes a water-efficient trigger spray, and an integral thermostatic valve, bringing comfort, control and practicality together in one refined piece of kit.

### Nomad - Compact Dog Shower

595mm (w) x 550mm (d) x 868mm (h)

Nomad has a compact footprint with a quietly luxurious finish. Made from glass-reinforced Fibre and Next-Generation Bio Resin, derived from renewable sources, it's strong, easy to clean and kinder to the planet.

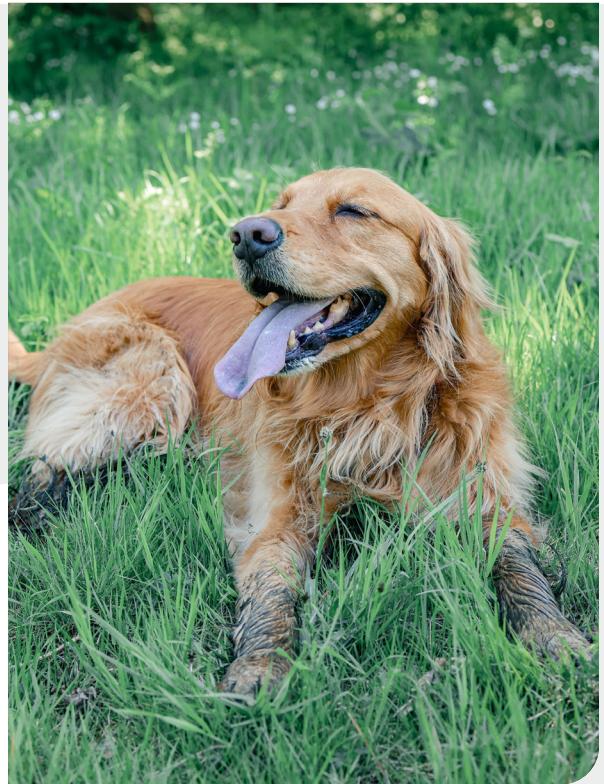

**Ideal for:** smaller utilities and boot rooms, city homes and spaces where every millimetre has to work hard.

### Explorer - Integrated Dog Shower

895mm (W) x 550mm (D) x 868mm (H)

Explorer is made from a tough, durable lifelong polymer – fully recyclable at end of life and engineered to withstand years of muddy paws without compromising on strength or finish.

**Ideal for:** larger utilities, busy family homes and dog-loving households where washing is part of the weekly routine.

# Testimonials

"We have been washing our spaniels in a butler sink for years and generally turning the utility room into a swamp. Oh how much easier is the shower! Molly and Midge are perfectly happy using it and it makes their very muddy spaniel walks so much less stressful, knowing a lovely hot shower is waiting and I can get them really clean. Thank you for making my life so much easier!"

**Heather**

Hampshire

"The Incredible Dog Shower transforms the stressful hard work routine into a dedicated delightful experience."

**Irish Examiner**

"As a nation of dog owners, it seems incredible that this clever dog shower wasn't designed earlier."

**The Life Magazines.**

"Overall, it's an excellent design and product that I will recommend to others. Bonnie and Maisie are now enjoying warm showers after their particularly muddy walks! This has made cleaning them after a walk so much easier

**Donald**

Aberdeen

"The dog shower saves time in terms of both cleaning and effort. Mud is contained to the utility room instead of the upstairs bathroom or the alternative - shivering outside with the hosepipe!"

**Annabel**

Surrey

"Having the Incredible Dog Shower installed in my utility room is a game changer for me and my dog Rupert. Previously I had to use the family shower for Rupert's paws after his daily walks. Now after each walk, he will hop up into the shower and wait for me to clean his paws".
